CALL FOR PAPERS

 University of
ULSTER

ICEE
Northern Ireland
2011

University of Ulster | Belfast | Northern Ireland | 21 - 26 August 2011

International Conference on Engineering Education

Engineering Sustainability for a Global Economy

The University of Ulster is delighted to host the latest in a series of extremely popular and well supported iNEER conferences on Engineering Education and Research. The theme of ICEE-2011 is 'Engineering Sustainability for a Global Economy' – a topical issue at present. This prestigious conference aims to update the engineering community on the latest developments in engineering education taking place around the world. The conference emphasizes the development of international partnerships in education and research and serves as a forum for establishing new contacts and discussing new projects for future collaborative work. We welcome everyone working in engineering education or in engineering graduate training to submit papers in line with the conference themes.

CONFERENCE THEMES

Sustainability

The role of Engineering Education in the Information Age; Delivering Sustainable Development; Clean Technologies; Climate Change Challenges; Environmental Engineering; Measuring Sustainability; Values and Engineering Ethics; Business Planning for the Future; Professional Practice, Lifelong Learning/CPD.

Globalisation

Internationalisation of the Curriculum; University/Industry Collaboration; Employability Skills for Engineers in the Global Marketplace; Enterprising Engineering Education; Inter-disciplinarity, Responding to Social, Environmental and Economic Change, Engineering Diversity in the Developing World; Global Citizenship.

Education

Global Challenges for Engineering Education; The Changing HE Environment; Inspiring the Next Generation of Engineers; Evolving Engineering Curriculum; Study Modes and Methods; Student Engagement; Exploiting Technological Change; Enhancing Engineering Education; Assessment & Feedback.

WHO SHOULD ATTEND?

This conference will be of interest to academics from all engineering disciplines as well as representatives from industry with responsibility for the recruitment and development of young engineers.

KEY DATES

16 February 2011	Abstract Submission Deadline
16 March 2011	Author Notification
15 May 2011	Camera-ready Manuscripts
30 May 2011	Early Registration Deadline

PAPER SUBMISSION

Abstracts and papers should be submitted through the conference website at:

<http://icee2011.ulster.ac.uk/submission.php>

All papers will be peer reviewed. Authors are reminded that papers submitted must not be under consideration by any other journal or publication.

If a paper is accepted, it is expected that at least one of the authors will attend the conference.

CONFERENCE VENUE

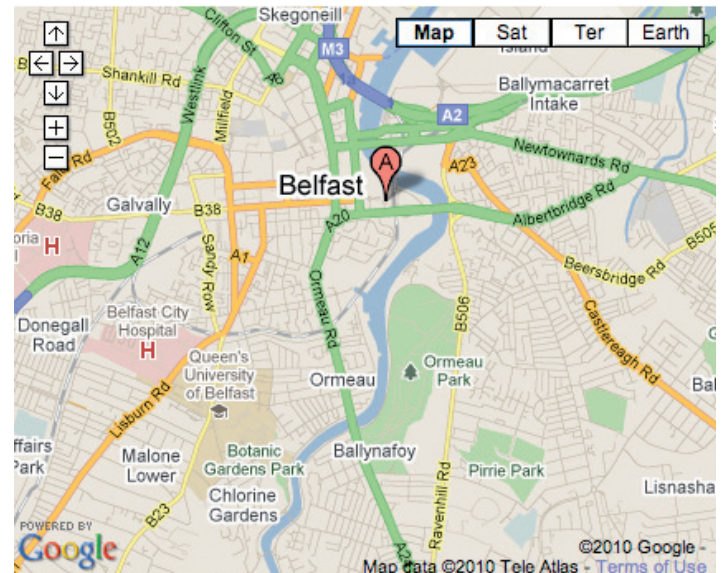

Conference venue, Waterfront hall, Belfast

BELFAST: Discover a city rich in history and cultural diversity

As a regional capital, there is much for visitors to do and see when in Belfast. Its popularity as a destination has grown enormously in recent years thanks to excellent leisure and tourist facilities and cheap and regular travel links.

An accessible city, less than one hour flight time from London, Belfast has two airports; Belfast City just 4 miles from the Waterfront Hall and Belfast International, only 22 miles away. Both airports have excellent connecting transport links to the city centre and service domestic and international routes.

As a sea port Belfast and nearby Larne, also have traditional ferry and high speed boat services to Scotland and England.

Belfast is a compact city with attractions around every corner. From traditional pubs and lively nightclubs in and around the Titanic quarter, to the delights of the Odyssey complex and W5, you will never be bored. Stroll in the Botanic gardens or enjoy the ancient wonders of the Ulster Museum and the Ulster Folk and Transport Museum. There is something for everyone in Belfast - young and old alike.

Should you decide to stay a little longer in Belfast, then why not visit the north coast and the Giant's Causeway, designated a UNESCO World Heritage Site and one of the 7 Wonder's of the World! Located in one of the most stunningly beautiful parts of the world other nearby delights for the senses include the Nine Glens of Antrim and the Bushmills Whiskey Distillery - the oldest distillery in the world.

For further information on tours, social events and accommodation, please check the conference website:

CONFERENCE FEES

Early registration	£500 (before 30 May 2011)
Late registration	£650
Day Delegate rate	£200

CONFERENCE CHAIR

Dr James Uhomoibhi, School of Engineering, University of Ulster, Northern Ireland

HONORARY CHAIRS

Prof RJ Millar, Dean, Faculty of Computing and Engineering, University of Ulster, Northern Ireland

Prof D McAlister, PVC Teaching and Learning, University of Ulster, Northern Ireland

Prof ND Black, PVC Innovation and Research, University of Ulster, Northern Ireland
